Hyderabad, India

Coding Platforms

LeetCode: Vinnu_07 CodeChef: vinnu_07 Codeforces: vignesh___07

Education

- **VNR Vignana Jyothi Institute of Engineering and Technology**, Hyderabad 2024 – 2028
  B.Tech in Computer Science — CGPA: 9.39
- **Sri Chaitanya Junior College**, Hyderabad 2022 – 2024
  Intermediate (MPC) — Percentage: 98.0%

Technical Skills

- Programming Languages: Java, C, C++, JavaScript, Python
- Frontend Development: HTML, CSS, Bootstrap, ReactJS
- Backend Development: Node.js, Express.js, REST APIs
- Databases: MongoDB, Oracle SQL
- CS Fundamentals: Data Structures and Algorithms, OOP Concepts, Operating Systems, DBMS
- Frameworks: Langchain, Langgraph, Langsmith
- Tools and Platforms: Git, GitHub, n8n, Figma, REST Client, Anaconda

Experience

- **Software Development Intern, SmartResumeTailor** March 2026 – July 2026
  Firebase, Gemini AI, Chrome Extension, Web Scraping | (SmartResumeTailor) (Chrome Extension)
  - Engineered an AI-powered resume optimization platform that analyzes job descriptions and generates ATS-friendly, role-specific resumes using Gemini AI and a serverless Firebase backend.
  - Designed and implemented an intelligent Chrome extension capable of extracting job requirements from recruitment portals, mapping candidate profiles to required skills, and automatically populating application forms through a multi-stage AI pipeline.
  - Developed secure backend APIs with JWT authentication, Firebase Cloud Functions, and backend request proxying to safeguard API credentials while enabling seamless integration between the extension and AI services.
  - Improved platform efficiency by implementing prompt optimization, intelligent model routing, and response caching strategies, reducing inference latency and API consumption while maintaining high-quality resume personalization.

Projects

- **Paper2PPT Generator** | *Python, Streamlit, Llama 3.2, Ollama* | (GitHub)
  - Developed an AI system that retrieves research papers from Semantic Scholar, arXiv, and CrossRef and automatically generates PowerPoint presentations using Llama 3.2 via Ollama.
  - Built with Python, Streamlit, and python-pptx for automated paper summarization and slide generation.
- **EduDisaster** | *React, Node.js, Express.js, MongoDB, REST API* | (GitHub)
  - Developed a full-stack MERN disaster preparedness education platform with age-based content personalization to deliver disaster response education.
  - Implemented RESTful APIs for dynamic content delivery and user management, enabling personalized learning experiences for different age groups and user demographics.
- **BharatFix** | *React, Node.js, Express.js, MongoDB, Cloudinary* | (GitHub)
  - Built a full-stack MERN civic issue reporting platform enabling citizens to report civic problems with image uploads and real-time status tracking.
  - Implemented secure RESTful APIs with JWT authentication and role-based access control, integrating Cloudinary for scalable image storage.

Certifications and Achievements

- Participated in the **JPMorgan Chase Code for Good 2026** hackathon, collaborating with a team to design and build a technology solution for a non-profit partner under tight time constraints. View here
- Won **2nd place** in the AI Track at **TCS Tech Day 2026** (organized by Tata Consultancy Services) for an innovative AI solution. View here
- Java Programming Fundamentals – Infosys Springboard. View here
- Reached the finals of a 24-hour national-level hackathon, where I collaborated with my team to build and present a working prototype within a tight deadline. View here
- Selected as a College-Level Qualifier for **Smart India Hackathon** (SIH) after presenting an innovative problem-solving solution.
- Hands-on experience developing full-stack MERN applications (MongoDB, Express.js, React, Node.js) at VNR VJIET.
- Earned the 100 Days Coding Badge on CodeChef and solved 400+ problems across LeetCode, CodeChef, and Codeforces, practicing multiple data structures and algorithmic concepts.

Extracurricular Activities

- Member of Turing Hut Programming Club, Improving programming skills through coding practice.
- Member of the Art of Living (AOL) Club; participated in an orphanage outreach activity.
